Uranus - A New Age Dawns

During the Summer of 2010 Uranus gives us a glimpse of our possible futures as it makes a brief visit to Aries. Next year it will return to Aries and start a journey that will take us through to 2019. Uranus is the ruler of Aquarius and Humanity, Aries is the sign that represents the initial spark of energy that begins all activity, and we are therefore witness to the dawning of a New Age for Humanity. In this workshop we will look at Uranus in the birth chart and the part each of us will play in this revolution that now stirs our world. Working individually and as a group you will have the opportunity to step into your chart and experience the energy of Uranus as it seeks to raise our consciousness and give us a new take on life. We are only limited by the choices we make and are standing on the threshold of exciting and life changing possibilities.

What do I need?

You will need a birth chart in order to see how Uranus affects you specifically rather than generally. Your chart will be prepared in advance for you when you book. You do not need a prior knowledge of astrology. Please bring a light lunch; teas and coffee will be provided. There are no places to eat locally.

Derek Hawkins

Derek is an experienced practitioner and teacher of astrology. Coming from a background of meditation and healing work, he began developing his own unique method of experiential astrology in the 1980's. Derek is resident astrologer for 'Kindred Spirit' magazine and teaches at the School of Insight and Intuition in London. Derek is based in Berkshire from where he runs his practice and courses.
