### What is it?

The focus for the day will be on Jupiter and its role in your birth chart. Esoteric astrology views Jupiter as an indicator of knowledge we were born with and need to put into practice during our lifetime. It also is a clue to the nature of our beliefs and the philosophy on life that will most suit us. We will work as a group and individually, looking at what Jupiter means for us and how we can benefit from Jupiter's influence.

### Why?

Every 12 yrs Jupiter which rules among other things spirituality, knowledge, philosophy and belief, travels through Pisces the sign that governs the intuitive and psychic world. We will look at how each of us can use Jupiter as it is in our birth chart to make the most of the present presence of Jupiter in Pisces to tune into and trust in our intuition. Jupiter is offering us a chance to transcend our fears and to touch 'the beyond.'

### What do I need?

You will need a birth chart in order to see how Jupiter influences you specifically rather than generally. Your chart will be prepared in advance for you when you book. You do not need a prior knowledge of astrology. Please bring food to share for lunch.
