What is it?

This workshop is an introduction to astrology in which you will be actively involved. The focus for the day will be on Chiron's role in our birth chart. Esoteric astrology considers Chiron to be the signifier of past life wounds that we carry into this life. In other words the position of Chiron at the time of our birth indicates the types of health issues we are vulnerable to and how they can be prevented or healed. During the day we will also be looking at how each of us can make the most of the present rare alignment of Chiron and Neptune in Aquarius to heal ourselves and at the same time play our part in the healing happening in the world around us.

Why?

Every 51 yrs Chiron travels through Aquarius. This year it combines with Neptune the planet that rules the astral world giving us access to our past and visions of the future. We are being asked to heal the past and live with more sensitivity and awareness. Living life more consciously allows us to make healthier choices based on a clear and realistic understanding of our purpose and our needs. We are also asked to look at how we can be of service to others as they too go through this healing process.

What do I need?

You will need a birth chart, which will be prepared in advance for you when you book. No prior knowledge of astrology is necessary.
